

★ ROCKFORD TATTOO COMPANY ★

CARE PROCEDURES FOR YOUR NEW TATTOO

- Leave bandage on your tattoo for a minimum of four hours, no longer than 24 hours. No need to rebandage. Wound needs air to heal.
- After removing bandage discard in waste basket. Always wash hands before caring for tattoos.
- After washing hands thoroughly, apply liquid soap to tattooed area, washing in a circular motion. After washing, rinse. Pat dry with clean paper towel/towelette.
- Apply Aquaphor sparingly after each wash, never apply salves onto tattoo that has not been washed first which means do NOT apply Aquaphor or anything else onto tattoo without first washing. And twice a day should do it.
- On fourth day, switch to body lotion of choice. Continue washing and moisturizing until tattoo has flaked.
- If irregular redness or infection is observed contact a physician immediately! Use common sense.
- Do NOT allow animals to come into contact with your new tattoo or allow tattoo to come into contact with any items animals may touch.
- Do NOT pick at your tattoo, touching it does NOT make it heal faster but it can infect it.
- Touch ups are done at artist discretion, any questions or concerns please contact us. 815-229-8288

Take care of your tattoo and it will bring you years of color!
